Dear All Seasons Unit Owners,

I hope this letter finds you well. Hope this winter is treating you well as we are certainly experiencing a cold and brutal winter thus far.

As many may have heard, or may not have heard, the campground is experiencing water issues that is a result of a leak on the grounds at All Seasons. We have had the well system reviewed by Capital Well to ensure our water source is in good working order. During this time, Intermittent water can be assessable to the community as the leak causes overworking to the water storage tanks and pumping system. The rec hall has water to assist in this water interruption 24/7.

It was our hopes that the detection and completion of the scope of work would be timelier. As the weather continues to not in our favor, the process is ongoing with an expected completion of the upcoming days. We have pinpointed an area of concern and has been become a mission to complete.

As events like this may occur from time to time, it has brought a concern to our communication process moving forward. We tend to make posting to our Facebook page as many have been in a routine of checking the page for updates. We are aware many do not use social media as a resource, and we want to ensure that we are able to touch all community members in a timely manner. We will be utilizing our newly designed Web site to post updates, event and additional information as needed or requested. The site is public and sensitive/personal information will not be shared until we find a member log in process. We would also like to start to build a process that we can create an email distribution list. With the many new members and outdated information on file, we are asking to provide email information so we can work on this project. Please email allseasons194@gmail.com and we can start to build the email address book. We are always open to suggestions as well.

We have been supported by a community that has been patient, kind and working with us through this difficult time.

Greatly appreciated,

Board of Directors
